### Profile

I am a **driven** Full-Stack Developer specializing in the **MERN Stack**, with a strong understanding of programming principles and best practices. I excel at creating efficient, reliable, and user-friendly applications that cater to diverse needs. My problem-solving skills and attention to detail drive me to deliver high-quality, scalable solutions. Dedicated to innovation, I am eager to contribute my technical expertise to build impactful applications and support organizational growth.

### Projects

#### AgriVibes, Agriculture Products Marketplace

10/2024 – 01/2025

- AgriVibes simplifies buying and selling agricultural products with a user-friendly interface, built using the **MERN stack** for seamless frontend and backend functionality. Efficient and easy to navigate, even for beginners.

#### Act4Fitness, Personalized Fitness Companion

11/2024 – 12/2024

- Goal-oriented tracking with a **Progress Dial** to calculate calories to burn, along with a diverse **workout library** and timer to track session time and calorie burn.

#### Artify, Dynamic Art Gallery

09/2024 – 09/2024

- Artify showcases diverse art categories like Modern Art, Sculpture, and Abstract Art through dynamic API calls, powered by Unsplash. It features high-quality images, easy downloads

### Education

#### B.Tech/ Information Technology,

Panimalar Institute of Technology

08/2019 – 07/2023 | Chennai, India

Percentage : 84%

#### Computer Science,

St. Joseph of Cluny Matric Higher Secondary School

06/2018 – 04/2019 | Tindivanam, India

Percentage : 66%

### Courses

#### Full-Stack Development Bootcamp, Upgrad

07/2024 – 01/2024

- Gained hands-on experience in MERN Stack by building and deploying full-stack web applications.
- Developed and integrated RESTful APIs, optimizing performance on both the frontend and backend.
- Collaborated on projects by solving real-world problems and applying industry best practices.

### Skills

**React JS** — Proficient

**JavaScript** — Proficient

**HTML/CSS** — Proficient

**Node.Js** — Expert

**Express.Js** — Expert

**MongoDB** — Expert

**Restful API** — Proficient

**Java** — Competent
